

## POWDER COATING AND ON-SITE SPRAYING SERVICES

We have our own mobile on-site architectural and commercial spraying division, utilising top of the range high-tech HVLP spray equipment, infrared drying lamps and four stage charcoal filtration systems. We use quality low VOC (volatile organic compounds), compliant 2K paints and lacquers, mixed to either a RAL colour or we can colour match to existing items. **Contact our sales office for further details.**

We are able to prepare and paint most external and internal metallic and plastic components or surfaces out of office hours with minimal disruption. These include:

- Doors and frames
- Stairs and handrailings
- Air-conditioning pipework and ducting
- Ventilator grilles
- Gates and fencing
- Lift interiors and doors
- Parking posts and bollards
- Tables and chairs
- Windows and frames
- Building cladding
- Door handles and light switches
- Postboxes
- Toilet flush panels.

## BESPOKE FABRICATION

---

We have our own in-house modern metalwork and fabrication workshop in Bexley, Kent, with the capability to undertake large batch orders or bespoke one-off engineered products. Door protection, kick plate and finger push plates, cut to your specific dimensions, can normally be dispatched the same day for nationwide next day delivery.

# ANTIMICROBIAL AND ECO-FRIENDLY PROTECTIVE COATING SERVICES

We can coat your existing door handles, finger plates and much more to provide protection against COVID-19 and many more harmful microbes.

This coating can be applied to most metallic surfaces, internal and external, including hand railings, lift panels, window fittings and much more.

WE CAN INCORPORATE OUR  
UNIQUELY FORMULATED  
ANTIMICROBIAL TECHNOLOGY  
INTO MOST PAINT AND  
LACQUER SYSTEMS, OFFERING  
MAXIMUM PROTECTION  
AGAINST MOULD, FUNGI AND  
HARMFUL BACTERIA.

## IRONMONGERY REJUVENATION SERVICE

For any works being undertaken where it is preferred by clients to keep and reuse existing ironmongery, we can either rejuvenate the existing products to the same finish or apply a new powder coated finish to your specifications.

Available in a variety of finishes including clear coat lacquer, matt black and matt white.
