

Environmental Statement of Poole Waite & Co Ltd

Poole Waite and Co Ltd is committed to minimising the impact of its activities on the environment, prevent pollution and ensure we keep up-to-date and comply with all relevant environmental legislation.

- We firmly believe in providing a service that is environmentally friendly. We abide by the laws and regulations prepared by the UK government.
- We actively promote recycling internally and ensure all staff adhere to the systems put in place.
- We evaluate all activities and undertake regular reviews to ensure we are operating as efficiently as possible.
- We look to ensure we make efficient use of water, energy and all natural resources.
- We look to source and promote product ranges to minimise the environmental impact both during production and distribution.
- When using spraying products either on our own premises or on location we ensure the safe transfer and handling of any waste and if necessary, employ the services of a member of the hazardous waste regulations to range safe disposal.
- We use as many non-toxic products as possible (Eg: Biodegradable cleaning products and low VOC paints).
